

DRIVING ACADEMY

Due to popular demand, we've added 3 more courses...

Register Today!

Course Duration - 2.5 Days - 20HRS

The Camaro Driving Academy is setting a new standard in performance driver education. Whether you have yet to set tires on a track, are looking to improve your high performance driving, or are interested in racing competitively, Camaro Driving Academy's curriculum is designed to give you the right tools to master every corner. Motorsports enthusiasts of all experience levels have an opportunity to drive on Canada's most exclusive circuit.

The Area 27 Circuit has the unique distinction of being envisioned, designed, engineered, and constructed by professional race car drivers. Designed to take advantage of the natural terrain, Area 27's sixteen turns flow through elevation changes like a favorite country road. Straightaways are long enough to generate speed and to allow the driver time to assimilate the previous corner's challenge. The 4.83km road circuit is located in British Columbia's beautiful Okanagan region, just 5 minutes east of Oliver, or a short 30 minute drive south of Penticton.
